## DigiSaver Aluminium Finger Guard

[COSHH Data](#)

[Installation Data](#)

[Product Images](#)

[Installation Video](#)

All aluminium finger guard for timber doors.

Fabricated from strong T6 Aluminium Alloy.

Models for 120° and 180° door opening angles.

Easily fitted to new or existing doors using normal hand tools.

Low maintenance needs.

Hygienic wipe-clean satin aluminium surface.

Suitable for single swing doors.

Available in Satin Aluminium finish in 2000mm lengths.

Supplied with all fittings and instructions.

### Description

This aluminium guard will not crack, tear or rip in the way that plastic polymer based guards can when subject to abuse or hard knocks.

The guard slides on a short track, which uses a self-lubricating plastic to minimise maintenance needs and can be installed in a few minutes.

Supplied in 2000mm lengths that can be cut to required door opening height.

Versions for 120° and 180° door opening angles are available.

**NOTE:**

The door surface material must be able to accept the screws used to secure the guard's guide rails.
