### Description

Astro Finger Guardian is a door hinge safety system designed to prevent the entrapment of fingers in the hinge gap of a door in the most demanding environments

Finger Guardian is a flexible safety strip which prevents fingers being jammed on the hinge side of a door and the jamb on the hinged side. When fitted the gap is covered completely and it is suitable for domestic or commercial use.

Finger Guardian is manufactured from PVC Nitrile and once installed requires no maintenance other than a wipe down with a damp cloth for cleaning.

With an aesthetically pleasing slim-line design this finger guard is easy to install, requiring no specialist tools or equipment. Self-adhesive backing strips are used to position the guard holding strips, which are then reinforced by screws (supplied), neatly concealed by the guard design.

Finger Guardian comes in **Front** and **Rear** styles (dimensions in mm)

Front to fit 180° door openings

Rear to fit 105° door openings - only for use on the rear of the door.

Five colours and four wood grain finishes, to match door veneers, are available.

Cover strips, used to conceal fitting screws (supplied) are colour matched to the guard.

## Availability

Sold individually or available to order in any quantity in 1950mm lengths.

| Colour / Finish | Guardian Front 180° | Guardian Rear 105 ° | Guardian Set |
|-----------------|---------------------|---------------------|--------------|
| Brown           | AFFGUBRNF           | AFFGUBRNR           | AFFGUBRNSET  |
