

FINGER PROTECTION

Finger Keeper Commercial: Anti-finger trapping device.

Finger Keeper is a door safety accident prevention product.

Fits most door types.

Will also protect many types of external gate.

Long anticipated lifespan.

Durable but easily fixed - foolproof design ensures simple DIY fitting.

Low maintenance - wipe clean finish.

Sold in 1960mm lengths. Full fitting kit included.

Acts as a secondary smoke inhibitor and draught excluder.

Easily removed and re-fitted to allow door maintenance.

The Finger Keeper device prevents finger trapping accidents by totally covering the gap that is created on the hinge side of a door when it is in the open position.

Once fitted it guarantees that fingers are safe from painful finger trapping injuries.

The Finger Keeper Device is available in 10 different colours to ensure it matches existing decor also available in Teak and Beech finishes (not illustrated).

Description

Finger Keeper can be fitted to most types of doors including wood, metal and uPVC.

The device is considered to be environmentally friendly.

Extremely simple to install and has a long life expectancy and can be easily removed and refitted for door painting etc. No glue or nails required.

Every year, according to RoSPA, over 30,000 children are injured in the UK as a result of trapping their fingers in doors.

Schools, Day Care Centres, Nurseries etc. - create the safest working environment and avoid potentially costly and disruptive injury claims. You may also benefit from reduced insurance premiums.

For total protection from finger trapping injuries in doors see also the rear hinge guard -
