Fits either left or right hand opening doors.

Supplied with high performance self-adhesive tape to aid easy fitting and fixing screws provided.

Easy to install

Description

Finger Saver Elite Front is a door safety product that prevents finger trapping accidents in doors while allowing the door to operate normally.

A simple and cost effective device it covers the gap created when doors are open and prevents fingers being trapped on the hinge side of the door. Once fitted the door / hinge gap is covered completely.

Finger Saver Elite is suitable for nurseries, schools, residential care homes and the majority of domestic and commercial applications.

Finger Saver Elite is unobtrusive - the slimline folding action only protrudes 30 mm from the door face in the closed position.

Finger Saver Elite front can be fitted to most types of door including wood, metal and UPVC.

It is extremely simple to install and can be easily removed and refitted for door painting or maintenance.

If you are also fitting a rear finger guard, the [rear device](#) must be fitted before this front device.

If in doubt about the suitability of this guard for your application please request a sample - see the [enquiry form](#).
