**For Rising Butt hinges**

**Prevents fingers being trapped in gap between frame and rear edge of door**

**Extremely durable and maintenance free**

**Impact resistant,**

**Brown or White**

**Fits most door types**

**Wipe clean finish**

### Description

Astro Finger Saver is a door safety accident prevention product that blocks the cavity formed between the edge of the door and the door frame and prevents fingers entering the cavity by means of a folding finger safety device. It also acts as a secondary draught excluder.

Suitable for rising butt hinges.

Once fitted it ensures that fingers are safe from painful finger trapping injuries.

Finger Saver can be fitted to most types of doors including wood, metal and UPVC. Extremely simple to install, has a long life expectancy and can be easily removed and refitted for door painting

Doors are used everyday by everybody but they are potentially dangerous and according to ROSPA there are over 30,000 finger injuries every year.

Teachers, parents, and carers have become increasingly aware of the danger of children trapping their fingers in closing doors and to avoid accidents recent legislation BS7036 Part 4: item 7.1 recommends "the use of a finger Saver that either fills the finger trap or minimises the gap so as not to create a finger trap.

A must for every Home & Commercial Residence

For total protection from finger trapping injuries in doors see also the Finger Keeper rear hinge guard
