Wide options (White and Brown):

#### Product Description

Finger Keeper is a finger guard that prevents door finger trapping accidents. By totally covering the gap that is created on the hinge side of a door, in the open position, it prevents finger trapping injuries. Ideal for using in Schools, Day Care Centres, Nurseries, hospitals or any internal doors that create risk to the Public. The device is designed to create the safest working environment and avoid potentially costly and disruptive injury claims. You may also benefit from reduced insurance premiums.

Finger keeper commercial can be fitted to most types of doors including wood, metal and uPVC. The standard device is 1960mm long with a 2100mm length also available. A wide version with additional panel is available for doors which open up to 180°. Finger keeper finger protection device is a low maintenance – wipe clean finish device. The device is extremely simple to install and has a long-life expectancy. With its screw fix design, it can be easily removed and refitted if any remedial works are needing to be completed.

For total protection from finger trapping injuries in doors see also the rear hinge guard - **Finger Keeper Rearguard**.  
**Ask for a Finger Keeper sample pack.**

Finger Keeper is available in various colours including Beech finishes to blend in with existing décor.
