## Astroliner

Revision 3 - October 2018

## Astroliner

### Intumescent Letterbox Liners

- Tested to BS476: Part 22: 1987
- For use in 30 and 60 min. fire doors
- Choice of Colour & Letterplates
- Self adhesive backed
- Easy to install
- Maintenance free
- Suits new or retro-fit

#### Product Description

Consists of a high performance, self adhesive backed, PVC laminated intumescent material which has been designed to line the aperture of letterboxes in solid fire resistant doors.

On exposure to a fire the liner will rapidly expand (intumesce) to seal the aperture and stop the spread of fire, smoke and hot gases through the door. The liner has been independently tested in accordance with BS476: Part 22: 1987 and the 50mm can provide in excess of 1 hour fire resistance.

See also [Telescopic Letterbox \(Fire & Smoke\)](#) & [Telescopic Letterbox \(Fire / Smoke/ Acoustic\)](#).

### Product Availability

Supplied in packs containing sufficient material to suit any size aperture up to 250 x 50mm and can be used in both 1/2 and 1 hour fire door assemblies. Larger sizes available on request.

Liner Colours - Black & Red. Letterplate colours - Brass or Satin Aluminium effect.

6 per box
