

Fire Rated Luminaire Canopy

Trade Name: ASTRO LUMI CANOPY

60 min rated

Certifire Approval

Lightweight

Self supporting

Resistant to tear and abrasion

Simple to install

Can be fitted from above or below

Suitable for suspended and modular ceilings

Description

Astroflame luminaire canopies are designed to specifically stop the passage of smoke and fire through a fire rated ceiling, where recessed downlights are fitted.

Tests have shown that, without the canopy in place, fire and smoke would penetrate through the recessed light fitting in seconds spreading into the void or room above endangering both lives and property.

The Astro Lumi Canopy will provide 60 minutes protection by completely containing the fire and smoke within the cover, whilst at the same time allowing the heat from the light fitting to dissipate through the cover

Fully tested to BS Standard 476 part 20 & 23 clause 5
The Astro Lumi Canopy also meets the requirements of class 0 materials

Availability
