

# Installation Sheet

## Finger Keeper Commercial

Revision 1 - April 2018

## Finger Keeper Commercial Tools & Equipment

- Measuring Block
- Carpenters Pencil
- Hacksaw
- Screw Driver

### Introduction

Finger Keeper is a finger guard that prevents door finger trapping accidents. By totally covering the gap that is created on the hinge side of a door, in the open position, it prevents finger trapping injuries. Finger Keeper can be fitted to most types of doors including wood, metal and uPVC.

Please read this instruction carefully before installing and using the device. The protective function and any possible guarantee of the device might be affected if you do not follow the instructions. Pass the instructions to the end user for future reference.

**WARNING – REPLACE THE DEVICE IF ANY PART IS BROKEN, TORN OR MISSING**

**Installation**

**Suitable For:** Standard timber or steel framed doors Minimum 35mm door thickness Butt hinged doors.  
Conventional pedestrian door sizes Opening angles up to 160°

1. With the door in the closed position, use a pencil/pen to draw a guideline on the door frame using the 20mm plastic measuring block (provided).

2. Simply repeat the procedure on the door to produce a second guideline.

3. Now wedge the door in the fully open position.

## Installation

4. Remove one layer only of the double sided tape from each side of the Finger Keeper Commercial.

5. Line up the edge of the Finger Keeper Commercial parallel to the guideline/pencil line on the frame. Press firmly to hold in position before finally securing with 0the screws (provided). (For metal doors and kick-plates pre-drill with 2.5mm drill bit).

6. Repeat this procedure to attach the Finger Keeper Commercial to the door itself.

## Storage and disposal

Astro Finger Keeper Commercial should be stored indoors. No shelf life is given as this product will not deteriorate in storage.
