

Installation Sheet

Astro Finger Protecta

Revision 1 - March 2018

Astro Finger Protecta Tools & Equipment

- Steel Tape Measure
- Carpenters Pencil
- Hand Brush & Dust Pan
- Hand Drill
- Screw Driver

Introduction

The purpose of this document is to give guidance to approved contractors and suppliers who are engaged in the prevention of finger trap accidents using the Astro Finger Protecta system.

Astro Finger Protecta is a high quality, resilient blind that prevents fingers entering the cavity formed between the edge of the door and door frame. The blind is mounted in a robust aluminium housing unlike a concertina style blind, which is constantly exposed and can suffer damage as a result.

A robust housing protects Astro Finger Protecta when not in use. Independently tested to over 1 million opening & closing cycles and prevents fingers entering the cavity formed between the door and the frame by means of an inflammable blind, which opens and closes with the action of the door.

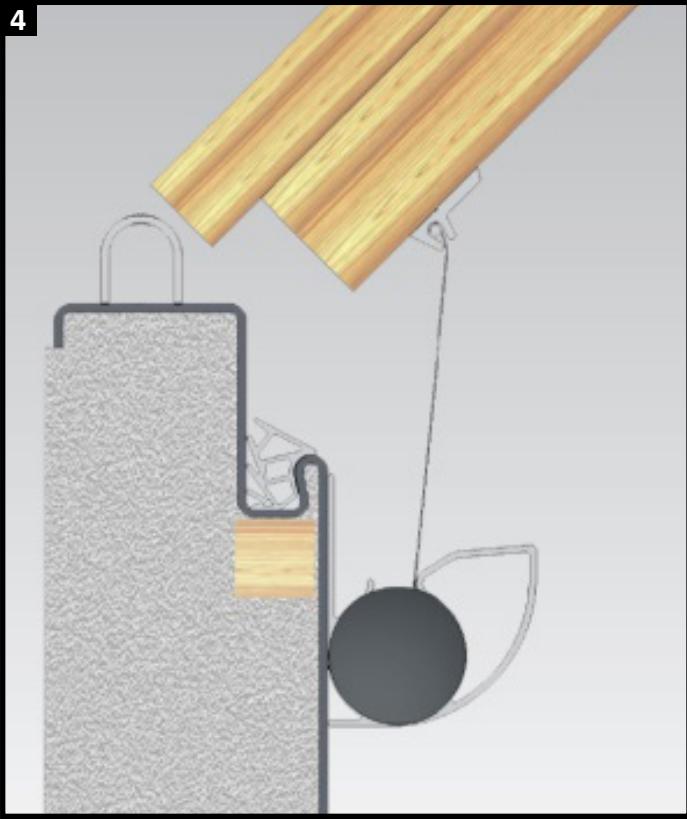

Suitable for use on 60 minute fire doors, It has concealed screw fixings and comes complete with end caps for that even neater finish.

Installation

A detailed installation sheet is provided with the product, please see below for a quick visual guide.

Installation continued

Compliance

Astro Finger Protecta is manufactured in the EU, meeting the highest quality standard in compliance with ISO EN 9001:2000.
