- Wide opening option available.

Wide options (White and Brown):

Product Description

Finger Keeper is a finger guard that prevents door finger trapping accidents. By totally covering the gap that is created on the hinge side of a door, in the open position, it prevents finger trapping injuries.

Finger Keeper can be fitted to most types of doors including wood, metal and uPVC. Sold in 1960mm lengths. Full fitting kit included.

Also acts as a secondary smoke inhibitor and draught excluder. Low maintenance - wipe clean finish. Extremely simple to install and has a long life expectancy and can be easily removed and refitted for door painting etc. no glue or nails required. Four panel, wide opening option with additional centre panel for doors with an opening angle greater than 180°.

Schools, Day Care Centres, Nurseries etc. - create the safest working environment and avoid potentially costly and disruptive injury claims. You may also benefit from reduced insurance premiums.

For total protection from finger trapping injuries in doors see also the rear hinge guard - Finger Keeper Rearguard.

Ask for a **Finger Keeper sample pack**. Finger Keeper is available in 7 different colours including Beech finishes to blend in with existing décor.
